THEMATIC AREA - ORAL AND MAXILLOFACIAL RADIOLOGY

Thematic Area ORAL AND MAXILLOFACIAL RADIOLOGY

Description Oral and maxillofacial radiology is that branch and specialty of

dentistry concerned with the production and interpretation of radiographic images, including CT and MRI scans that are used for

the diagnosis and management of diseases, disorders and

conditions of the mouth, face and jaws. An oral and maxillofacial radiologist is a dentist who studies and interprets radiographic images for conditions affecting the head, neck, face and jaws. To become an OMR, a dentist must complete a postgraduate degree

program. This training includes thorough knowledge on

techniques and interpretation of maxillofacial CT, CBCT, MRI,

ultrasound and other pertinent modalities

Head of Thematic Area DR. TOM J. OCHOLLA [1]

Staff DR. EUNICE KIHARA [2]

DR. FLORENCE OPONDO

Programmes <u>Undergraduate</u> [3]

Graduate [4]

Career Opportunities There are great opportunities for one wishing to specialize in Oral

and Maxillofacial Radiology. Employment opportunities exist within the major hospitals, dental schools, and in the armed forces medical services. Alternatively specialists can open their

own private consultancies.
